**Online Kattack Tracking**

We are pleased to announce Kattack will provide live, online tracking of the boats in the 2010 U.S. Qualifying Series.

Supporters and members of the invited clubs, and the general public, can access the live tracking through the New York Yacht Club web site: [www.nyyc.org](http://www.nyyc.org). Click on the event home page. For those team supporters who are at Harbour Court for the regatta, they can follow the on-the-water competition from large monitors on land located in the Hospitality Center on the Lower Lawn.

The New York Yacht Club will also post on its web site a daily blog, written by Brad Dellenbaugh, daily photographs and will post throughout the day the preliminary race results.

Please advise your members that wish to follow your teams' progress but cannot be in Newport of these resources. With an internet hookup and a flat screen your club bar can broadcast the races live to the cheers of your members.

Best regards,

Dod Fraser
